The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 6, the closest prior art Nagasaka (US 5,333,246) fails to show or fairly suggest an image processing system to be activated on a network, comprising: wherein, when a predetermined condition occurs in mid-course of the rasterization processing conducted by the rasterization processing section, the image data transmitting section transmits the image data and a completed-part of the pixel data, for which the rasterization processing have been completed by that time, to the other image processing apparatus, so that the other image processing apparatus conducts a continuation of the rasterization processing for the image data.

Regarding claims 7-8, the claims are allowable due to dependence from the respective base claim 6.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
